

OUR PRACTICE

LITIGATION: Relying on their professional experiences, our attorneys have successfully litigated all types of intellectual property cases before administrative agencies, state courts, and federal courts, including litigation involving patent, trademark, copyright, trade secret, and trade dress cases.

INTERNATIONAL WORK: The firm provides comprehensive intellectual property representation for a worldwide clientele. Such work includes the representation of domestic companies seeking intellectual property protection abroad, as well as the representation of foreign companies pursuing such protection in the United States. In the area of patents, this representation includes the preparation and prosecution of patent applications in both the U.S.P.T.O. and foreign patent offices, new product clearance, patentability analyses, and patent litigation. The firm also counsels clients extensively on the registration, licensing, and enforcement of trademarks and copyrights. In all areas of intellectual property representation, the firm's attorneys frequently work with counsel in other countries to provide and coordinate multinational legal strategies.

FIRM OVERVIEW

We are excited to have returned to our boutique roots as of January 1, 2008, demonstrating the same superior quality of service and client dedication that our founding partners have practiced for many decades. Focused on matters involving intellectual property, our firm provides litigation, licensing, and strategic counseling services relating to patents, trademarks, copyrights and trade secrets. Whether assisting an individual inventor in securing a trademark or representing a Fortune 500 company in high stakes litigation, PSB&N address each client need with the responsiveness and personalized attention characteristic of a sophisticated boutique firm.

The “new” firm consists of founding partners (from left to right) Bill Schwarze, Ron Panitch, Al Nadel, Clark Jablon, John Jamieson (seated right), and Martin Belisario (seated left), along with the many other attorneys and staff you have grown to trust over the past twenty-five years, plus a wealth of new faces and technology to serve you.

OUR APPROACH

PSB&N adopts a team approach, encouraging the collaboration of our patent, trademark, and copyright professionals so as to maximize client protection. We have long-standing relationships with a network of foreign associates in countries around the world, allowing us to provide clients with global protection of their intellectual property assets. Our attorneys attend international conferences and meet with foreign associates regularly to ensure that our clients are well-represented with a comprehensive IP protection and enforcement strategy both domestically and abroad.

FIRST-RATE TEAM

Focused on matters involving intellectual property, our firm provides litigation, licensing, and strategic counseling services relating to patents, trademarks, copyrights and trade secrets. Our team of 20 patent and trademark practitioners has extensive experience across all areas of science, with specialized degrees (many with advanced degrees) in areas such as mechanical and chemical engineering, microbiology, chemistry, and physics. We are committed to understanding the intricate products and processes of our clients, tailoring our services to meet unique client needs and advise on the best forms of protection. Many of our attorneys have also written and lectured extensively, with articles featured in journals such as *The National Law Journal*, *Science and Nature*, *The Pennsylvania Lawyer*, and *BusinessWeek*. Our four named partners have been repeatedly featured in *Chambers USA*, and are all included on this year’s *Pennsylvania Super Lawyers* list.

OUR PRACTICE

PATENTS: With the rapid advancement of new technologies in virtually all areas of science, patents continue to be one of the most important ways to protect intellectual property rights. PSB&N attorneys recognize this and rely on their wealth of experience and knowledge to successfully guide clients through the patent process. This broad range of expertise includes the preparation and prosecution of patent applications in the U.S. Patent and Trademark Office and foreign patent offices, new product clearance, due diligence and patentability analyses.

TRADEMARKS:

Establishing and protecting trademark rights serves as a key component of the firm's intellectual property practice. With experience that extends to all types of trademark disputes, including domain name issues, PSB&N attorneys are well-equipped to successfully maximize clients' current trademark portfolios and guide the selection of new marks for products and services.

COPYRIGHTS: The firm's attorneys are adept at counseling clients on the registration, licensing, policing, and enforcement of copyrights. Understanding how copyright protection frequently overlaps other forms of intellectual property protection, such as patents and trademarks, PSB&N focuses on fostering the best possible legal solutions.
