Philadelphia, PA 19103

Dear Martin:

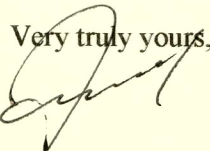

This past Wednesday, October 15, 2008, Drug Plastics and her people celebrated the 45th anniversary of our founding, by Suzanne and I, in the basement of our \$50.00/month rented home.

By the grace of God, a lot of luck, a wonderful family, people like you, and because of the very best co-workers in the world, we have grown this business into a world-class manufacturer of pharmaceutical bottles and safety closures.

I have enclosed a small gift for you, because you have also meant so very much to DPG and the Biesecker family for these past 45 years.

This is not a general customer mailing by any sense of the word, in that I am only sending this letter to my short list of those that have encouraged and supported me, and meant the most to me for many years.

Martin, thanks for the memories. I have truly been blessed. Thank you for being a part of our success!

Very truly yours,

Fred N. Biesecker
