Description:

Martin Belisario, Al Nadel, Clark Jablon, John Simmons and Dennis Butler of Panitch Schwarze Belisario & Nadel LLP will give a presentation on the newly enacted Leahy-Smith America Invents Act. Lunch will be provided. CLE will be applied for but is not guaranteed.

Faculty:

Martin G. Belisario practices intellectual property and technology law, including representation before the United States Patent and Trademark Office and foreign patent offices, technology licensing, counseling and litigation. His practice focuses primarily on the mechanical arts, including transmissions, HVAC systems, small appliances, medical, software and electro/mechanical devices.

Alan S. Nadel is experienced in all aspects of patent matters involving bioscience, chemical and mechanical inventions, including patent preparation, prosecution, licensing and litigation. Specific exemplary high-technology fields include biotechnology, human and veterinary pharmaceuticals, nutritional products, inorganic and organic chemistry products and processes, semiconductor wafer processing products and processes, and environmental remediation systems. Other areas include heat exchange systems, water treatment systems, paper making technology, sporting goods and toys.

Clark Jablon focuses his practice on all phases of patent prosecution, including drafting and prosecuting patent applications, preparing patentability and infringement opinions, conducting intellectual property due diligence investigations and providing litigation support for patent cases. He is experienced in all phases of electronics, computer hardware and software, Internet technologies and computer-implemented business methods.

John D. Simmons' practice focuses on IP litigation including patent, trademark, copyright, trade secrets, computer fraud and abuse, cybersquatting and licensing/contract disputes. John has litigated cases involving a wide variety of technologies, including instrumentation, gaming devices, video games, software, Internet security software/systems, ionization systems, industrial designs and medical devices. He has extensive patent drafting, due diligence, opinion writing and licensing experience.

Dennis Butler focuses his practice on intellectual property transactional, litigation and technology law, including representation before the United States Patent and Trademark Office and foreign patent offices, counseling, technology licensing and intellectual property litigation. His practice is concentrated in mechanical technologies, including medical implants, small appliances, automotive mechanisms, cleantech technologies, structural composite assemblies, bicycle technology, indoor games and electro/mechanical devices.
